

CENTAURI ARTS

Here are some of the many positive reviews our SHSM Arts and Culture workshops have received from teachers and from SHSM Leads at school boards across Ontario:

"Aaron was really great. The activities he had the students do were extremely relevant, engaging, and well-paced. He offered excellent examples and gave meaningful feedback to the students."

- Teacher at the UGDSB with reference to our Digital Art and Graphic Design programs.

"We very much enjoyed our SHSM training with Zebulun. The students learned a great deal and now have new ideas to apply to their song writing projects. We managed to share our audio clips with Zebulun and get his feedback. Although we would have loved to have a workshop in person, it worked out quite well and we appreciate the opportunity! Thank you again."

- Teacher, Greater Essex DSB, with reference to our Songwriting SHSM

"The workshop was so fantastic and showed a great way of focusing on a subject area (the Arts) in the context of Equity. "

- Teacher, Peel District School Board with reference to our Equity and Diversity training program

"Everything was great and we look forward to booking more certifications with you in the future!"

- Teacher, UGDSB with reference to our Special Effects Make-Up training program

"This went very well. Thank you again for offering this to our students. I can't wait for the next one."

- Teacher, UGDSB with reference to our Cartoon Creation training program

"It was a great mix of teaching, showing examples for inspiration and then students were given time to take their own pictures and practice. Instructions were clear and easy to follow. Your facilitator also gives options for different levels if some students want a challenge."

- Teacher, Renfrew County DSB, with reference to our Photography training program

“The workshop was fantastic. Abby had a number of excellent suggestions and exercises. She provided kids with the opportunity to share their ideas (verbally or in the chat). “

- Teacher, Peel DSB with reference to our Screenwriting SHSM training program

The exercises were very supportive and easy to make humorous; kids always think they are not funny.

- Teacher, Peel DSB, with reference to our Sketch Comedy SHSM

Bonnie was amazing! The information she presented was extensive and extremely practical. Even though there was a lot of information, it was extremely well organized. The activities were effective, and the students were fully engaged throughout. Bonnie's tutorial on Wevideo was so helpful. She really should make that a regular component of her presentation as I'm certain many teachers would appreciate the guidance. Both the students and I loved the entire presentation.

- Teacher, UGDSB, with reference to our Podcasting SHSM

The workshop was good – the students really enjoyed it! The session was personal and there was a safe space created.

- Teacher, Greater Essex County District Schoolboard with reference to our Acting for TV & Film SHSM program

It went really well! The students seem to really enjoy it, and Aaron was really patient with them and I appreciated him answering all of their questions, and re-explaining some of the tasks.

- SHSM Board Lead, Waterloo Catholic DSB

This morning's session was great. The kids asked some really good questions and seemed to get quite a bit out of it. Even though Cullen couldn't really tell from a google meet, they were engaged and listening the whole time. Thanks so much for your work, Cullen!
