

# School Outreach Program

## Arts Workshops in Schools, Colleges, Seniors' Centres and Community Venues

Centauri Arts works with more than fifty talented arts professionals to offer workshops in schools and community groups. Our arts teachers are proficient at delivering arts workshops in person and virtually, and can create programs to meet the needs of any group, including elementary and high school students, college students and seniors. Centauri Arts is also booking experienced arts professionals to offer industry training programs for SHSM 'Arts and Culture' students in high schools and school boards across Ontario. All our instructors are available for one-time workshops, or semester-long projects, day or evening. We can offer a single arts session, or combine workshops to create festivals and day-long, whole-school events.
